BUILT FOR THE WILDERNESS.

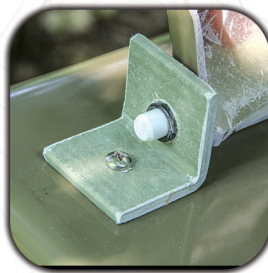

THE WILDERNESS TOILET

The Wilderness Toilet is the perfect pit-style toilet for any location. From backcountry campsites and trail heads to camp grounds and hunting shacks, this product will stand the test of time. We know that just transporting equipment to your outlying locations can be a significant investment, many of these units are carried in by hand, canoe or dogsled.

This john will never rot, crack or split and will be the last pit toilet you ever have to transport to that site. Made in Minnesota from high-quality, durable fiberglass with a UV resistant gel-coat exterior.

(Can be purchased without lid.)
